

PROP NUMBERING SYSTEM

Our prop numbering system is used to help identify key characteristics of each prop. All props are assigned a 6 digit number followed by the letter "C", "V", or "X". Some props have an additional set of letters following a dash

Example: 125-600C-NT

The 6 digit number identifies the signs' backings.

- 100- (Authentic Vintage Sign)
- 125-001 thru 125-499 (Faux Vintage Sign on wood vintage style cabinet)
- 125-500 thru 125-999 (Faux Vintage Sign on metal vintage style cabinet)
- 150- (Neon mounted on plexiglass)
- 175- (Neon mounted on a studio flat)
- 250- (Un-mounted neon)
- 300- (Equipment rentals)
- 900- (Assemblage Prop – materials vary. This is a prop made by combining multiple props)

That letter immediately following the 6 digit number identifies the sign's origin.

- "C" indicates signs is made with original Heaven or Las Vegas artwork.
- "V" are Vintage signs, antiques, or found objects and are not cleared art.
- "X" are acquired props with designs of unknown origins and are not cleared art.

The final set of letters following a dash appears on some but not all props

- NT (Transformer not included)
- AN (This prop animates)
- ANP (This prop can animate with the use of additional rental equipment)
